**REG7- Renewal of To Let Boards, Regulation 7 Direction**

The City of Durham Trust wholeheartedly supports the County Council's decision to seek approval for the renewal of this method of controlling the use of "To Let" boards in the City of Durham Conservation Area.

The Regulation 7 Direction has proved very effective in improving the appearance of the area and the boards are in any case no longer necessary when letting agents use the internet to advertise their properties.

Any possible extension of the area covered by the restrictions should be the subject of a separate application so that it does not delay the renewal of the regulation in the City of Durham Conservation Area.

Best wishes

John
